

HARDIGREEN PARK SANTA GERTRUDIS SUPPLEMENTARY SHEET

All bulls were weighed and scanned on the 2nd July 2021 by Roger Evans of Bovine Scanning Services Tamworth NSW. Vet check, scrotal measurements and semen motility assessment was carried out by Quirindi Vet Clinic NSW. Semen morphology assessment by Queensland Sperm Morphology Lab Goondiwindi QLD.

Sale bulls have had a light grain supplement and have been grazing solely on forage oats for the last 6 weeks. DWG calculated with 32kg deduction for birth weight.

LOT	AGE	WEIGHT	DWG	SS	EMA	RUMP FAT	RIB FAT	SEMEN MOTILITY	SEMEN MORPHOLOGY	BULLS TO SUIT HEIFERS
